

REMARKS

On October 30, 2007, Applicants filed an Amendment and Response, along with a Request for Continued Examination. This submission complements that in presenting a properly executed declaration by inventor Dr. Eric W. TRIPLETT concerning the Riggs *et al.* (II) reference, which is an abstract of an address that was presented at a conference on December 3-7, 2000 in Sydney Australia. The abstract was not available until December 5, 2000, while the priority date for the application is December 4, 2000. Applicant proffers the attached declaration from Dr. Eric W. Triplett, dated August 29, 2006, in which Dr. Triplett avers to the date of public availability of Riggs *et al.* (II) (see Appendix A).

A previously submitted declaration was rejected by the Office because it lacked "the penalty paragraph." The Office did not indicate what it meant by the penalty paragraph, but Applicants believe the Office was referring to a paragraph pursuant to 18 USC 1001, which is now incorporated into paragraph 5 of the attached declaration.

Entry of this Supplemental Amendment is respectfully requested.

Should the Examiner have any questions or would like to discuss any matters in connection with the present application, the Examiner is invited to contact the undersigned.
